

CANE TOADS

A 'DAM' PROBLEM

YOUR PROPERTY IS WITHIN THE SOUTHERN CONTAINMENT ZONE in the CLARENCE.

Clarence Landcare has a Cane Toad Control Project and we are aiming to partner with landholders to halt the march south of these feral pests.

DO YOU HAVE A DAM ON YOUR PROPERTY?

This current dry spell is concentrating Cane Toads to fresh water farm dams and other water bodies.

CAN YOU PLEASE HELP?

For a short period we have a dedicated Cane Toad Control team on board—so if you have seen or heard any Toads on your property or local area please ring our

Grafton Landcare Office 02 66 435 009 for a chat.

Signed 11/02/2019
