

Weed Control Map – Angourie Reserve - 2018 - 2019

ACC volunteers team up with CVC

bush regenerators to spray bitou and ground asparagus from Spooks Point to the north end of Spookies beach.

The Green Point Easter Senna Bash attracted 27 volunteers from Angourie Community Coastcare and Wooloweyah Landcare.

Rear: Kenny, Rick, Lindsay, Imelda, Grant, Ming & Margaret
 Front: Joel, Jacob and John. Gary fixing the leak on the gas gun.

Angourie Point - Spraying and Hand Pulling

22 Aug 2019

Total weeds pulled or sprayed = 350. (including Warrick's 3 monsters and 10 medium sized ones.)
Well done everyone!

I found last year's weed map. The stats are impressive:

The total area addressed is 1.7ha which is 17,000sqm.

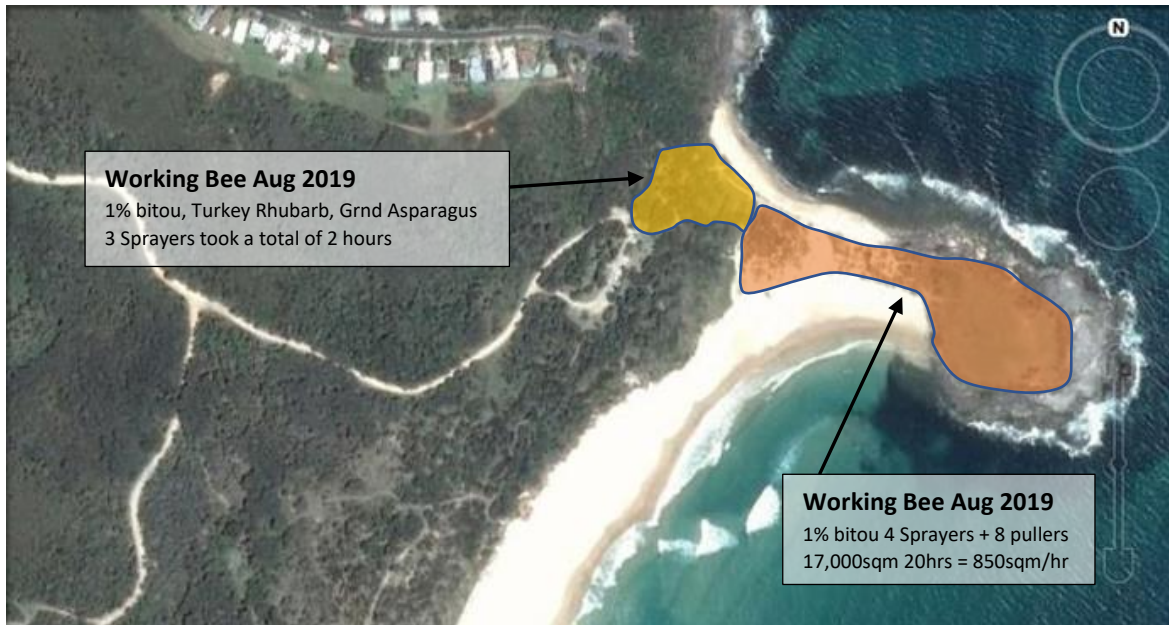

Last year, Lindz and I took a total of 5 hours to spray this area. (3,400sqm/hr)

Our time today, as a group of 12 took 20 hours, incl. hand pull, training and photo. (850sqm/hr)

Let's say 360 weeds were sprayed or pulled by 12 people = 30 weeds/person/hour onsite.

However you look at it, whether you sprayed or pulled, they are pretty darn good rates/hour.

Thanks again all sprayers and pullers.

Last Year July 2018 Bitou density 1% Area 17,000sqm Gas gun = 5hrs
Gas gun. 20 litres. 1g/litre Metsulfuron, 40ml Wetter and 40ml Red dye.
